**FIRST AID MEASURES**

IF IN HALLED	Remove victim to fresh air. If not breathing give artificial respiration, preferably mouth-to-mouth. Do NOT give mouth-to-mouth resuscitation if the victim ingested the substance. If breathing is labored give oxygen. Keep the victim at rest and warm. Obtain immediate medical advice
IF SWALLOWED	If the victim is alert and not convulsing, give the person ½ to one full glass of water to

	rinse the mouth with. Do not induce vomiting, unless under direction of a physician or a poison control center expert. If spontaneous vomiting occurs, have the victim lean forward with the head down to avoid breathing in of vomit, rinse mouth and administer water. Transport the victim immediately to an emergency facility.
IF ON SKIN	Flushing the skin with running water. If irritation persists repeat rinse. Seek medical advice if required.
IF IN EYES	Immediately flush eyes with running water for a minimum of 15 minutes. Hold eyelids open during flushing. Seek medical advice immediately.

**MEDICAL ADVICE:** Symptomatic treatment and supportive therapy as indicated above

**SECTION 5.**

**FIRE FIGHTING MEASURES**

<b>AUTO IGNITION TEMPERATURE (°C)</b>	<b>Not Auto-Flammable, Non-Combustible</b>
<b>FLASH POINT (°C)</b>	<b>No Flash</b>

EXSTINGUISHING MEDIA	For small fires, use foam, carbon dioxide or dry powder extinguishant. For large fires use foam or water-fog; avoid using water jet. Contain run-off with barriers, e.g. earth.
FIRE & EXPLOSION HAZARDS	The product is very difficult to combust, but can be burned. Keep fire exposed containers cool by spraying with water. Container could explode when heated.
PROTECTIVE EQUIPMENT	Wear full protective clothing and NIOSH-approved self-contained breathing apparatus. Fire might produce irritating or poisonous vapors, mists or other combustion products.

**SECTION 6.**

**ACCIDENTAL RELEASE MEASURES**

PERSONAL PRECAUTIONS	Ventilate area of spill or leak. Ensure suitable personal protection during removal of spills. Wear eye protection, chemically resistant gloves, boots and coveralls.
CLEANING METHODS	Absorb spillages onto sand, earth or any suitable absorbent material. Transfer to a container for disposal. Wash the spillage area with water. Washing must be prevented from entering surface

	water drains. Seal drums and dispose of contaminated material in a facility permitted for hazardous waste. Large spills should be handled according to a spill remediation plan.
DEACTIVATING CHEMICALS	None Known
ADDITIONAL INFORMATION	Spillages or uncontrolled discharges into water sources must be alerted to the appropriate regulatory body.

**SECTION 7.**  
**HANDLING AND STORAGE**

SAFE HANDLING	Practice good industrial housekeeping practices
STORAGE REQUIREMENTS	Store in original containers with lid closed. Keep in cool and dry area. Protect the containers from physical damage.
