FIRST AID MEASURES

IF IN HALLED	Allow victim to rest in a well ventilated area. Seek medical advice.
IF SWALLOWED	Give the person ½ to one full glass of water to rinse the mouth with. Do not induce vomiting, unless under direction of a physician or a poison control center expert. If spontaneous vomiting occurs, have the victim lean forward with the head down to avoid breathing in of vomit, rinse mouth and administer water. Transport the victim immediately to a emergency facility.
IF ON SKIN	Remove contaminated clothing. Flush the contaminated skin with running water. If irritation persists repeat rinse. Seek medical advice if required.

SECTION 6.
ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS	Ensure suitable personal protection during removal of spills. Wear eye protection, chemically resistant gloves, boots and coveralls.
CLEANING METHODS	Absorb spillages onto sand, earth or any suitable absorbent material. Transfer to a container for disposal. Wash the spillage area with water. Washing must be prevented from entering surface water drains. Seal drums and dispose of contaminated material in a facility permitted for hazardous waste. Large spills should be handled according to a spill remediation plan.
